

Stop The Night

Zahara

The way we won't give up
We kiss and then we make up
We're powerful, so powerful
We talk about everything
There's no secrets behidden
We're natural, so natural
Nobody thought we'd get this far
But here we are

There's nothing like
Like you and I
Our love could stop the night
Our hearts are one
That's what makes us strong
Our love could stop the night

Could stop, stop the night
Could stop, stop the night
Our hearts are one
Yeah that's what makes us strong
Could stop, stop the night
Could stop, stop the night
Into love we run
Yeah that's what makes us strong

I trust who you are
I trust a bit of your heart
You're beautiful, we're beautiful
The way we dream of tomorrow
Watching our future grow
We're spiritual, so spiritual
Nobody thought we'll come this far
But here we are

There's nothing like
Like you and I
Our love could stop the night
Our hearts are one
That's what makes us strong
Our love could stop the night

Could stop, stop the night
Could stop, stop the night
Our hearts are one
Yeah that's what makes us strong
Could stop, stop the night
Could stop, stop the night
Into love we run
Yeah that's what makes us...

Stronger, because we're together
So come whatever, we not afraid
Our hearts are one force
Together we'll stay the course
This is our choice
We're not afraid
Our hearts are one

There's nothing like
Like you and I
Our love could stop the night
Our hearts are one
That's what makes us strong
Our love could stop the...
Our love could stop the night

Could stop, stop the night
Could stop, stop the night
Our hearts are one
Yeah that's what makes us strong
Could stop, stop the night
Could stop, stop the night
Into love we run
Yeah that's what makes us strong
