

Who I Am

Zahara

Who I am, where I'm from
Silver and gold
Won't take me this far
Who I am, where I'm from
Silver and gold
Won't take me this far
It came running back
You came running back

Who I am, where I'm from
Silver and gold
Won't take me this far
Who I am, where I'm from
Silver and gold
Won't take me this far
It came running back
Came running back

There are a thousand colours in the Earth
I don't wanna be none of them
There are a thousand colours in the Earth
I don't wanna be none of them

For I will show my true colours
Let me bloom, let me shine
Let it be

Who I am, where I'm from
Silver and gold
Won't take me this far
Who I am, where I'm from
Silver and gold
Won't take me this far
It came running back
You came running back

There are a thousand colours in the Earth
I don't wanna be none of them
There are a thousand colours in the Earth
I don't wanna be none of them

Who I am, where I'm from
Silver and gold
Won't take me this far
Who I am, where I'm from
Silver and gold
Won't take me this far
It came running back
You came running back

Who I am, where I'm from
Silver and gold
Won't take me this far
Who I am, where I'm from
Silver and gold
Won't take me this far
It came running back

You came running back

You came running back

You came running back

You came running back
