

Alchemy

Zak Abel

I feel this alchemy
Lead into gold
You are the centrepiece
Heaven to hold, well, well, well

Something keeps telling me you are no good (I don't listen baby
)
How could you make me feel so blue?

We don't need to question what it is
I can taste your poison on my lips
Tie me in chains and I won't say no
Maybe I'm crazy for wanting more
But every time I come back around, it's alchemy reborn

Blood on my fingertips
Cut by a rose
You are the symphony
I couldn't compose

Something keeps telling me you are no good (I don't listen baby
)
How could you make me feel so blue?

We don't need to question what it is
I can taste your poison on my lips
Tie me in chains and I won't say no
Maybe I'm crazy for wanting more
But every time I come back around, it's alchemy reborn

We don't need to question what it is
I can taste your poison on my lips
Tie me in chains and I won't say no
Maybe I'm crazy for wanting more
But every time I come back around, it's alchemy reborn
