Cry

Zak Abel

When the darkness gets way too strong
And each week is a day too long
Feels like there's nothing you can do
I'll sing you your favourite song
I'll turn all your lights back on
I'll keep loving you
I'll keep loving you
You know when I'm around
You can let it out

I make you cry
I wanna move you deep inside
I wanna help you heal
And feel like you're alive
I wanna sing it true
'Cause everything I do's for you
So if you're holding back the tide
Let the river open wide
Cause I wanna make you cry

I been in the place you're in
If only you could feel something
I'd give anything for ya
Why d'you never tell no-one
The truth bout what's going on
I'll keep loving you
I'll keep loving you
Maybe when I'm done
You won't feel so numb

I make you cry
I wanna move you deep inside
I wanna help you heal
And feel like you're alive
I wanna sing it true
'Cause everything I do's for you
So if you're holding back the tide
Let the river open wide
Wanna make you cry
Wanna make you cry
Wanna make you cry
Cry
Cry

I wanna make you cry
