

# Endless Summer

Zak Abel

Endless summer

Lost love, now it's back again  
I've been right here waiting  
One touch and something's in the air  
Got my heartbeat raising

I got that feeling again like it's an endless summer  
I got that feeling again like it's an endless summer  
No time for regret, no time for sleep yeah  
Not fucking leaving, when you're with me yeah  
I got that feeling again like it's an endless summer

I got that feeling again  
I got that feeling again

Hands up, raise 'em to the sky  
'Cause I got you by my side  
It's bold love every single time  
And it takes me higher

I got that feeling again like it's an endless summer  
I got that feeling again like it's an endless summer  
No time for regret, no time for sleep yeah  
Not fucking leaving, when you're with me yeah  
I got that feeling again like it's an endless summer

I got that feeling again  
I got that feeling again

Rain rain, go away, summer's here to stay  
Cheers to better days (endless summer)  
Rain rain, go away, summer's here to stay  
Cheers to better days, ooh

I got that feeling again like it's an endless summer  
I got that feeling again like it's an endless summer  
No time for regret, no time for sleep yeah  
Not fucking leaving, when you're with me yeah  
I got that feeling again like it's an endless summer
