

Only When We're Naked

Zak Abel

Baby, let me know you
Nothing but the whole truth
I wanna see the side of you
You don't reveal

Love me at your loudest
Let me see your wildest
This feeling in my heart is cold
And I'm for real

So intoxicating, when we make love
Only when we're naked, can we be one

Only when we're naked
Like we were creating
Only when we're naked
Can we be one tonight, just you and I

I don't wanna hold back
Baby, you should know that
I would walk across the world
To see you through

We gon' make it holy
(Make it holy)
You just gotta show me
(You just gotta show me)
Cause I say love's a doing word
Meant for two

So intoxicating, when we make love
Only when we're naked, can we be one

Only when we're naked
Like we were creating
Only when we're naked
Can we be one tonight, just you and I

Wanna be naked, I wanna be naked with you
Wanna be naked, I wanna be naked with you
I'm feeling your lovin', your energy pulling me through
Wanna be naked, I wanna be naked with you

Oh yeah
Wanna be naked with you baby
Wanna be naked with you baby
Oooh

Only when we're naked
Like we were creating
I don't wanna fake it
Can we be one tonight, just you and I
