

Ms. Perfection

Zapp

Already perfect, let me see you work it
Already perfect, let me see you work it
A-a-already perfect, let me see you work it
Work it, work it...

I've been watching you standing in the corner
I tried, but it's impossible to ignore ya
Seems like you're kind of shy
Or maybe you don't know what you got
From your head to toe, baby, you're flawless
I thank the Lord for giving you all this
I don't think you recognize this
But girl, you're looking hot

If you could see what I see (what I see)
If you could look at yourself through my eyes
Then you'd see...

Why I call you Ms. Perfection
Ms. Perfection! Girl, you're lookin' sexy
Go 'head and work it (work it, girl)
You're already perfect, yeah
Ms. Perfection! Girl, you're lookin' sexy
Go 'head and work it (work it, girl)
You're already perfect, yeah

Do you mind if I get a little closer?
I love how you smile, when I'm rubbin' on your shoulders
Go 'head and lose yourself
Girl, this could be one of those nights
(This could be one of those nights)
Hold my hand like you already know me
Girl just relax, let's it take to the floor, please
Baby, don't go second-guessing
The moment just feels so right

If you could see what I see (what I see)
If you could look at yourself through my eyes
(Whoa, then you'd see) then you'd see...

Just why I call you Ms. Perfection
Ms. Perfection! Girl, you're lookin' sexy
Go 'head and work it (work it, girl)
You're already perfect, yeah

Girl, let's have a good time
Oh, let's spend the night on the floor
Baby, we can dance 'til the sun comes up, girl

(Baby, you're so) girl, you're so fine
Baby, you blow my mind...

And that's why I call you Ms. Perfection
Ms. Perfection! Girl, you're lookin' sexy
