

Play Some Blues

Zapp

I just don't care what you play
You ain't played enough till you play some blues
I just don't care what you play
You ain't played enough till you play some blues (Play some blues)
Brother, won't ya play some blues?

Let me tell ya, music come in fall forms
But the blues is where it started from
Mm, play it, brother

I just don't care what you play
You ain't played enough till you play some blues
I just don't care what you play
You ain't played enough till you play some blues

Mm, Lord
Let me tell ya, music come in fall forms
But the blues is where it started from

I don't think you hear me now, I said you oughta play some blues
Every day of your life, brother
I don't think you hear me now, I said you oughta play some blues
I don't think you hear me now, I said you oughta play some blues
Every day of your life, brother
I don't think you hear me now, I said you oughta play some blues
And I don't think you hear me now, I said you oughta play some blues

I just don't care what you play
You ain't played enough till you play some blues
I just don't care what you play
You ain't played enough till you play some blues

Mm, Lord
Let me tell ya, music come in fall forms
But the blues is where it started from
Mm, play it, brother
