

## Red & Dollars

Zapp

This, that, unapologetic, kinetic  
Big Snoop Dogg, I said it  
Let it be known, we grown up off that Zapp  
Big boom, bap, slap  
This in your cassette or deck  
Another ounce to bounce your neck  
Respect out here on the west  
Roger Troutman - the best  
Yes yes, and my nephew Les  
Say "Snoop, kick something off your chest"  
Let the bird fly from the nest  
Battlecat and Dogg with connect on the set  
Breathe, now let it rest  
Strings and guitars, hood stars  
All up in your neighborhood, yes we are  
Blowing hella smoke out of fresh cigars  
A lot of dee-dah-dah, a lot of dee-dah-dah  
Roger Troutman - the best  
We grown up off that Zapp

The music will never be the same (be the same)  
Red n' dollars really changed the game (changed the game)  
They did their thang, which was to entertain (entertain)  
The hits we made, it really was insane (insane)  
Doing shows for half a century (half a century)  
Did the show, that everyone had to see (ooh...)  
The things they did for our community (community)  
We will remember you for eternity (for eternity)

Man, Rog... I miss you so much  
I just miss all the days back in the garage  
And the studio, layin' down them tracks, touring  
I mean, I know one of these days, soon  
We'll play again, just like this...
