

Ammunition

Zara Larsson

You know my situation
Why you acting like you can't be patient?
All I'm hearing from you lately
"Monogamy's so fucking dated" (Mm-hmm)
Boys like you love fantasy (Mm-hmm)
Anime, no, that ain't me (Mm-hmm)
They dream 'bout controlling things (Mm-hmm)
Sad you went so cold on me
Come hold on me

You been distant
I wanna give us a shot
Please give me, give me, give me ammunition
Love me, love me, kiss me, touch me
I wanna give us a shot
Please give me, give me, give me ammunition

You know my intuition
Got me out here looking at you different
You been acting like you on a mission
Tryna make this love we made go missin', mm-mm

Girls like me know what we need
Fix yourself or watch me leave
They dream 'bout controlling me
Sad you went so cold on me
Come hold on me

You been distant
I wanna give us a shot
Please give me, give me, give me ammunition
Love me, love me, kiss me, touch me
I wanna give us a shot
Please give me, give me, give me ammunition

Can we just go back to when I still believed in it?
If you got me way back, then life could have been different
Probably be living with you
But after all I been through, I
I get nervous when you're swerving me
Can't think about you hurting me
I need you to prove your worth

You been distant
I wanna give us a shot
Please give me ammunition
Love me, kiss me
I wanna give us a shot
Please give me, give me, give me ammunition

You've been distant
I wanna give us a shot
Please give me, give me, give me ammunition
Love me, love me, kiss me, touch me
I wanna give us a shot
Please give me, give me, give me ammunition

Give me ammunition (Shot)
Give me ammunition (Shot)
Give me ammunition (Shot)
Give me ammunition (Shot)

Give me, give me, give me, give me
Give me, give me, give me, give me
Give me, give me, give me, give me
Give me, give me, give me, give me
Love me, love me, kiss me, touch me
Kiss me, touch me, kiss me, touch me
Love me, love me, kiss me, touch me
Kiss me, touch me, kiss me, touch me
