

Escape

Zara Larsson

Everything's going like crazy
Don't even got time to breathe, hmm
Lately I'm needing my baby, mm-mm
To come and take care of me, me, me, me

(Please) Could you pour up my drink?
Could you rub my feet?
Would you roll with me?
Hey, baby, I'm (Weak)
In the knees, yeah
(Please) Could you pour up my drink?
'Cause you know my kink
Would you roll with me?
Hey, baby, I'm weak
Come fly with me, yeah, yeah

Ooh, you got my heart goin', bae
I think we one and the same
Baby, be my escape
Maybe we could hop on a plane
Hear you calling my name
Baby, be my escape
Got me feeling like ooh, na na na, yeah
Na na na, whoa-oh
Would you be my, be my, be my escape?

Maybe our love is an island
This bed is a private beach, oh yeah
Imagine we shower in diamonds (Shower, shower, shower)
Paradise, you and me, me, me

(Please) Could you pour up my drink?
Could you rub my feet?
Would you roll with me?
Hey, baby, I'm (Weak)
In the knees, yeah, yeah
(Please) Could you pour up my drink?
'Cause you know my kink
Would you roll with me?
Hey, baby, I'm weak
Come fly with me

Ooh, you got my heart goin', bae
Think we one and the same
Baby, be my escape
Maybe we could hop on a plane
Hear you calling my name
Baby, be my escape
Got me feeling like ooh, na na na, yeah
Na na na, whoa-oh
Would you be my, be my, be my escape?

See, it's a private flight
You can take me all the way, anywhere you like
Just don't let me go
Leave all the finer things
When I'm lying next to you, that's enough for me

Just don't let me go

Ooh, you got my heart goin', bae
Think we one and the same
Baby, be my escape
Maybe we could hop on a plane
Hear you calling my name
Baby, be my escape
Got me feeling like ooh, na na na, yeah
Na na na, whoa-oh
Would you
Would you be my, be my, be my escape?
Na na na, yeah
Na na na, oh
Would you be my, be my, be my escape?
