

Wait For Me

Zara Larsson

It's too loud for talking
So I haven't told you yet
You're slipping out of my hands
Like quicksand
It's too dark to see you
It's all smoke and silhouettes
I don't even know, no, I don't even know where we stand

Name the price that I'm paying
'Cause I gotta say it
I've never seen a boy, so drop it, oh

I need you like the sky needs stars
I need you like the beat of my heart
I need you like the breath you take from me
If you're going baby, wait for me
I want you baby, I could go mad
Insane because I want you so bad
I won't let you get away from me
If you're going baby, wait for me

It's too late for sleeping
So where can we go to next?
Tonight is slipping out of our hands, oh
And I don't even know, (Know), so tell me what can I do? (Can do)
Why wherever you go, (You go) I've been following you?
You know I do anything, oh yeah, I do anything that I can (Can)

Name the price that I'm paying
'Cause I gotta say it
I've never seen a boy, so drop it, oh

I need you like the sky needs stars
I need you like the beat of my heart
I need you like the breath you take from me
If you're going baby, wait for me
I want you baby, I could go mad
Insane because I want you so bad
I won't let you get away from me
If you're going baby, wait for me

I can't sleep, it feels like I'm dreaming
It's like I'm falling in love with you
Pinch me, it feels like I'm dreaming, oh

I need you like the sky needs stars (Need stars)
I need you like the beat of my heart
I need you like the breath you take from me
If you're going baby, wait for me
I want you baby, I could go mad (I could go mad)
Insane because I want you so bad
I won't let you get away from me
If you're going baby, wait for me
I want you baby, I could go mad
Insane because I want you so bad
I won't let you get away from me
If you're going baby, wait for me
