

Inhale

Zavod

I am my own pills
Non-medicational thrills
Consuming life
Controlling me

I inhale
Inject and exhale
Inject and remain
In life-elixir rain
I inhale
We're all high on a drug called life
We must count as addictives you and I
Give back the air that you stole all this time
Take control, stop breathing now

I inhale
Inject and I exhale
Inject and I remain
In life-elixir rain
I close my eyes and I inhale

I exhale
I inhale
Just breath baby, breath
I exhale
The addiction remains and everything's the same

I inhale
And let the precious air inside me
I exhale
And let the endless pressure leave me

Why inhale?
I inhale
Come on, just breath baby, breath
Why exhale?
The addiction remains and everything's the same
