

## Be Free

Zayde Wolf

Late at night we stumble through the city  
Acting like we know where to go  
Standing there in the shadows looking pretty  
Like your eyes have been laced with gold

We are the lost ones  
We are the ones that will always roam  
All the time we feeling trapped and guilty  
Making deals the only way we know

We're coming alive  
Coming alive

Everybody  
Everybody wanna be free  
Everybody  
Everybody wanna be free  
Free as we'll ever be  
Everybody  
Everybody wanna be free

I can tell that you running hot blooded  
Way you talkin' with that razor tongue  
But that's the way you keep my heart jumpin'  
Like the animals we've become

We are the lost ones  
We are the ones that will always roam  
All the time we feeling trapped and guilty  
Making deals the only way we know

We're coming alive  
Coming alive

Everybody  
Everybody wanna be free  
Everybody  
Everybody wanna be free  
Free as we'll ever be  
Everybody  
Everybody wanna be free

We've got this feeling in our soul  
We've got the reason in our bones  
We'll never ever let it go  
No, we won't let go
