

# Champion

Zayde Wolf

Two steppin' over whoever you crew reppin'  
New lesson your current teachers a new legend  
Threw stressing, the fight in me is my true weapon  
And under pressure I handle it like a true veteran  
They gossip, hate it's based off it  
Stay true to your ways, you make it then profit  
Victory is near, you take it, they lost it  
Never will you ever say forfeit, keep on walkin'

Keep on walking, like a champion  
Keep on walking, like you own the night  
Keep on walking, like a champion  
Keep on walking, like you own the night

This is my time, this is my time player  
Guess you didn't get the message check ya wifi player  
Came from the dirt thinkin' how unfair  
Got the keys to my city thinkin' now I'm mayor  
How sway  
How'd he do it how'd he make it happen  
How did Jordan get picked third, how Yeezy make it rappin'  
How'd Muhammed Ali come back when they said can't be done  
Easy they were champions  
And they just keep on walkin'

Keep on walking, like a champion  
Keep on walking, like you own the night  
Keep on walking, like a champion  
Keep on walking, like you own the night

Take the gold, take the gold  
Take the gold, take the gold

Gotta step it up, can't back down  
Gotta step it up, like you own the night
