

# Cold-Blooded

Zayde Wolf

The stage is set for my people yeah  
Coming back like a sequel yeah  
So hot I'm a fever yeah  
Like the white wolf I'm gonna make you a believer yeah

I'm running on straight diesel yeah  
Like I'm Evel Knievel yeah  
Too fast it's illegal  
Call me the underdog gonna make you a believer yeah

I don't ever ever wanna look back  
The future's blurry but the past is a trap  
I might be staring at my last chance

But I'm cold blooded  
I'm cold blooded  
Ice in my veins  
Never gonna run  
Venom on my fangs  
Fire on my tongue

I'm cold blooded  
It's all or nothing  
If I go down  
Gonna burn with the sun  
Won't quit now  
Till I'm sitting on the throne  
I'm cold blooded

Digging in the dirt for a reason yeah  
Face the fear, face the demons yeah  
No this ain't pre-season  
We gotta rise up, gonna die before we beaten yeah

Stand tall with my legion yeah  
Hear the name that they screaming yeah  
Chasing power but I ain't evil yeah  
Life of the party, remember me as the dreamer yeah

I don't ever ever wanna look back  
The future's blurry but the past is a trap  
I might be staring at my last chance

But I'm cold blooded  
I'm cold blooded  
Ice in my veins  
Never gonna run  
Venom on my fangs  
Fire on my tongue

I'm cold blooded  
It's all or nothing  
If I go down  
Gonna burn with the sun  
Won't quit now  
Till I'm sitting on the throne  
I'm cold blooded

I don't ever ever wanna look back  
The future's blurry but the past is a trap  
I might be staring at my last chance  
No no no no  
I don't ever ever wanna look back  
The future's blurry but the past is a trap  
I might be staring at my last chance

I'm cold blooded  
Are you ready?  
Are you ready?  
Cold blooded  
Are you ready?

I'm cold blooded  
I'm cold blooded  
Ice in my veins  
Never gonna run  
Venom on my fangs  
Fire on my tongue

I'm cold blooded  
It's all or nothing  
If I go down  
Gonna burn with the sun  
Won't quit now  
Till I'm sitting on the throne

I'm cold blooded  
I'm cold blooded  
Ice in my veins  
Never gonna run  
Venom on my fangs  
Fire on my tongue

I'm cold blooded  
It's all or nothing  
If I go down  
Gonna burn with the sun  
Won't quit now  
Till I'm sitting on the throne  
I'm cold blooded
