

# Gladiator

Zayde Wolf

Let me back it up to the start of the climb  
Faced with an army of vipers and lions  
I had to keep on reaching up 'cause it was my time  
To tear down the kingdom and call out the liars

Got a jail on my heart from the pessimists  
Got those nails in my mouth for impressionists  
Spent too much money on a therapist  
Couldn't fix me, I accepted it

Gladiator, gladiator, gladiator  
Picked a fight with the gods I'm the giant slayer  
Bone shaker, dominator  
Freight train, wrecking ball, I'm the gladiator

Tell me what it is that you think you believe  
Caught in a cross fire. Trouble at sea  
Every single day I feel that gold underneath  
I see the locked doors but I got the key

Imma give you a second just to catch your breath  
'Cause I can see that your heart is jumpin' out your chest  
I know you gave it all, 'cause I've already seen your best  
It is time you accepted this

Gladiator, gladiator, gladiator  
Picked a fight with the gods I'm the giant slayer  
Bone shaker, dominator  
Freight train, wrecking ball, I'm the gladiator

I've got every reason to fight  
I've got every reason to fight  
Have you ever shaken hands with the devil in the night?  
Let me tell ya  
I've got every reason to fight

Gladiator, gladiator, gladiator  
Picked a fight with the gods I'm the giant slayer  
Bone shaker, dominator  
Freight train, wrecking ball, I'm the gladiator

Gladiator, gladiator  
Picked a fight with the gods I'm the giant slayer  
Bone shaker, dominator  
Freight train, wrecking ball, I'm the gladiator
