

Issa Vibe

Zayde Wolf

Just a lost boy
I might never ever grow up
Dream in my head
That I know I'm gonna blow up
Apollo to the moon
Like a rocket it don't slow up
It don't slow up

Sharp dressed suckas yeah
You know we gonna show up
Never break a sweat
Got the music we can turn up
What's your favorite drink
We can keep it all flow up
All flowin' up

Put the windows down one more time
Time time time
Cuz we can do this all night

It's a vibe
Issa issa vibe
Keep it on all summer
Hold your glass to the sky
It's a vibe
This is how we ride
Hear us come like thunder
We be living so high
It's a vibe
Issa issa vibe
We were born from the under
Now watch us we can fly
It's a vibe
This is how we ride
Suit and tie all done up
No we don't even try
It's a vibe

Charge it to the room
Yeah you know that you can bill me
Run me through the course
If you wanna try to drill me
I might've aged out
But I'll run that 40 if you feel me
Do you feel me

From LA to Japan
Ninja style, keep it chilly
I'm not a samurai
But I really made a killing
I'll show you the way
If you show me that you're willing
Are you willing?

Put the windows down one more time
Time time time
Cuz we can do this all night

It's a vibe
Issa issa vibe
Keep it on all summer
Hold your glass to the sky
It's a vibe
This is how we ride
Hear us come like thunder
We be living so high
It's a vibe
Issa issa vibe

Now watch us we can fly
It's a vibe
This is how we ride
Suit and tie all done up
No we don't even try
