

It's Not Over

Zayde Wolf

Running through the night cause I'm a loner
Angels with the devil on my shoulder
Adrenaline is pumping through my motor
It's not over
It's not over

Momma said I need to take it slower
But I know I was made to be a soldier
Born for this moment getting closer
It's not over
It's not over Yeah

Tell me what you see in my eyes
This lone wolf killa gonna rise
Thunderclap flashing in the sky
I will survive

It's not over
Until I say it's over
It's not over
Until I say it's over
I ain't giving up na na na na
I ain't giving up na
It's not over
It's not over
Until I say it's over

Until I say it's over

Until I say it's over

Out here we don't have no safety
I'm in the eye of the hurricane lately
But I can stand up and fight it bravely
I might be crazy but you can't slay me
No oh oh oh

Tell me what you see in my eyes
This lone wolf killa gonna rise
Thunderclap flashing in the sky
I will survive

It's not over
Until I say it's over
It's not over
Until I say it's over
I ain't giving up na na na na
I ain't giving up na
It's not over
It's not over
Until I say it's over

Until I say it's over

Until I say it's over

It's not over

Until I say it's over

It's not over

Until I say it's over

Tell me what you see in my eyes

This lone wolf killa gonna rise

Thunderclap flashing in the sky

I will survive

It's not over

Until I say it's over

It's not over - no it's not over

Until I say it's over - it's not over no

I ain't giving up na na na na - ain't giving up

I ain't giving up na

It's not over - no it's not over

It's not over

Until I say it's over
