

# Madness

Zayde Wolf

Last chance  
The time has come  
Step into shadows  
Army of one

You've got no savior  
Nowhere to run  
Born to face it  
The war's begun

This gonna be madness  
This gonna be madness  
Not taking no chances  
This gonna be madness

Walking through the ashes  
And I'm carrying matches  
This gonna be madness  
This gonna be madness

Let's get crazy  
Let's get crazy  
Yeah we like it

This gonna be madness

Let's get crazy  
Let's get crazy  
Yeah we like it

This gonna be madness

Last dance  
The time has come  
Let's make some magic  
Let's have some fun

Step into greatness  
Walk to the sun  
Born to face it  
Since you were young

This gonna be madness  
This gonna be madness  
Not taking no chances  
This gonna be madness

Walking through the ashes  
And I'm carrying matches  
This gonna be madness  
This gonna be madness

Let's get crazy  
Let's get crazy  
Yeah we like it

This gonna be madness

Let's get crazy  
Let's get crazy  
Yeah we like it

This gonna be madness

Don't live just for safety though  
Cause this road is a wavy one  
We can do it for the crazy though  
Let's go  
Let's go

This gonna be madness  
This gonna be madness  
Not taking no chances  
This gonna be madness

This gonna be madness

This gonna be madness  
And I'm carrying matches  
I've been walking through the ashes  
This gonna be madness

This gonna be madness
