The day is coming like a pistol That's aiming at my brain The way you shining like a crystal Makes me forget the pain It's do or die, it's do or die A battle cry, a battle cry Don't stop keep going, don't stop keep going Don't stop keep going, don't stop keep going No limits, no limits We're taking it all We're taking it all No limits, no limits We're taking it all We're taking it all No limits I've been walking tall lately Nobody can hold me down Things are moving like crazy No, nothing can stop me now I'm dreaming it, I'm dreaming it I'm living big, I'm living big Don't stop keep going, don't stop keep going Don't stop keep going, don't stop keep going No limits, no limits We're taking it all We're taking it all No limits, no limits We're taking it all We're taking it all No limits No limits, no limits Can't hold me back I'm all in it No limits, no limits No dream is too big not to finish Don't stop keep going, don't stop keep going No limits, no limits We're taking it all We're taking it all No limits, no limits We're taking it all We're taking it all No limits, no limits We're taking it all We're taking it all No limits, no limits We're taking it all

We're taking it all
