

Right Now

Zayde Wolf

Everyday I'ma walk through the fire
Burn it up just to get a little higher
If I told you it was easy I'm a liar

I can be your adrenaline supplier
Make your heart feel every desire
Bloodline got a bite like a spider

This is the moment
We become giants
Rattle the cages
Never be silent
We got our reasons
For starting a riot
This is the moment

Right here right now
Let's go and get it right now
Making a move right now
Right here right now
Let's go and get it right now
Making a move right now
Right now

If you got a problem I can be your cypher
I could hit it from a mile like a sniper
Hey I'm sorry if I get a little hyper

Magic like abracadabra
Moving so quick I just passed ya
Stacking up gold in my bag yah
Taking the win like the champion

This is the moment
We become giants
Rattle the cages
Never be silent
We got our reasons
For starting a riot
This is the moment

Right here right now
Let's go and get it right now
Making a move right now
Right here right now
Let's go and get it right now
Making a move right now
Right now

This is the moment
We become giants
Rattle the cages
Never be silent
We got our reasons
For starting a riot
This is the moment
This is the moment

Right here right now
Let's go and get it right now
Making a move right now
Right here right now
Let's go and get it right now
Making a move right now
Right now
