

Rumble

Zayde Wolf

Smoke in my lungs
Blood on my tongue
I'm here to make the devil cry

It's like a drug
When I'm on the hunt
I'm gonna wake the war inside

Stare at the sun
Do it for fun
This is the way I live my life
This is the way I live my life

Listen to me now
Listen to me now
It's coming down to the two of us
Let me show you how
Listen to me now
It's coming down to the two of us

I'm here to rumble
I'm here to rumble
Get ready for thunder
Cause I'm here to rumble

Ladies and gents
I won't pretend
I think I forgot my medicine

They'll think I'm a mess
But I'm making sense
I feel it in my skeleton

I know I'm intense
I'll cut the suspense
I'm here to take down everyone
I'm here to take down everyone

I'm here to rumble
I've got danger in my favor like a razor
I'm here to rumble
Diamond breaker it's my nature
Get ready for thunder
Cause I'm here to rumble
I'm here to rumble
I'm here to rumble
I'm here to rumble
I'm here to rumble

Listen to me now
Listen to me now
It's coming down to the two of us
Let me show you how
Listen to me now
It's coming down to the two of us

I'm here to rumble

I've got danger in my favor like a razor
I'm here to rumble
Diamond breaker it's my nature
Get ready for thunder
Cause I'm here to rumble
I'm here to rumble
I'm here to rumble
I'm here to rumble
I'm here to rumble
