

# Stand Alone

Zayde Wolf

I see the place where I was born  
I was raised by the new dawn  
And now I sit inside the storm  
Like the eye of the pyramid  
I know everything ahead  
I'm on the hunt don't you forget

Gotta work for it, work for it every day, work for it  
Gotta work for it, work for it every day, work for it

I stand alone  
Can't get much higher  
It's in my bones  
The true survivor  
I stand alone  
I keep on rising  
Up to the throne  
I won't stop fighting  
Cuz I stand alone

Somebody turned off all the lights  
Try to steal like a parasite  
But they can't take away the fight  
Cuz I've been wild since I been a kid  
Live a life hanging off the grid  
No, I ain't never ever gonna quit

Gotta work for it, work for it every day, work for it  
Gotta work for it, work for it every day, work for it

I stand alone  
Can't get much higher  
It's in my bones  
The true survivor  
I stand alone  
I keep on rising  
Up to the throne  
I won't stop fighting  
Cuz I stand alone

I stand alone...  
I stand alone...

Gotta work for it, every day work for it  
Gotta work for it, work for it every day, work for it  
I stand alone, I stand alone, it's in my bones, I stand alone, yeah
