

Still Fighting For It

Zayde Wolf

The fate is hittin heavy on my shoulders
The rain is coming down it's getting colder
Feels like I'm gonna run out of time

I never thought that I would be the soldier
Can I keep it all together: my composure
Cause I've got another mountain to climb

And I feel the darkness right now, yeah
But I really want this some how, yeah
If I jump it's more than a vow,
Cause this ain't over no
This ain't over no

Sometimes it feels like I'm living a dream
But I know that it's real cause
I'm still fighting for it!
Yeah it feels like I'm living a dream
But I know that it's real cause
I'm still fighting for it!

I guess I got a bounty on my head now
But I don't even take it like a threat now
That's how they be playing the game

I see the rhythm of the knife on the ledge now
But I ain't even tryina break a sweat now
Cause I've got another dragon to slay

Sometimes it feels like I'm living a dream
But I know that it's real cause
I'm still fighting for it!
Yeah it feels like I'm living a dream
But I know that it's real cause
I'm still fighting for it!

I'm still fighting for it!
I'm still fighting for it!
I'm still fighting for it!
I'm still fighting for it!

I'm not ever living life from the back seat!
I'm like Usain Bolt at the track meet!
I try to keep it cool, but I ain't even low key!
Got a hundo in my pocket, I ain't broke see?
Cause I'm getting back to the basics
What hit me, what hurt me, what made me
Cause maybe this life is worth saving
Yeah I think this life is worth saving

Sometimes it feels like I'm living a dream
But I know that it's real cause
I'm still fighting for it!
Yeah it feels like I'm living a dream
But I know that it's real cause
I'm still fighting for it!
I'm living a dream

But I know that it's real cause
I'm still fighting for it!
Yeah it feels like I'm living a dream
But I know that it's real cause
I'm still fighting for it!

I'm still fighting for it!
I'm still fighting for it!
I'm still fighting for it!
I'm still fighting for it!
