

The Future Looks Good On You

Zayde Wolf

Last night's still got us spinning like a record yeah
Sun's poppin' up got us feeling like a second chance
Oh oh
I can feel those good things coming our way

Yeah this is how we do it, this is how we change the circumstance
Tell me how you feel, cause you're looking like you wanna dance
Oh oh
I can feel those good things coming our way, yeah

My oh my
Anything could happen
You could touch the sky
Anything could happen
The future looks good (so good)
The future looks good (so good)
Yeah the future looks good on you
My oh my
We can do whatever
Yeah I'm feeling fine
As long as we're together
The future looks good (so good)
The future looks good (so good)
Yeah the future looks good on you

You're feeling alive
You've got that look in your eyes
And the future looks good on you

You've got all I need
Yeah I'm dreaming but I'm wide awake
This is guaranteed, I'm feeling high for goodness sake
Oh oh
I can feel those good things coming our way
Oh oh
We got those good things coming our way, let's go

My oh my
Anything could happen
You could touch the sky
Anything could happen
The future looks good (so good)
The future looks good (so good)
Yeah the future looks good on you
My oh my
We can do whatever
Yeah I'm feeling fine
As long as we're together
The future looks good (so good)
The future looks good (so good)
Yeah the future looks good on you

You're feeling alive
You've got that look in your eyes
And the future looks good on you

The future looks good

The future looks good on you

My oh my
Anything could happen
You could touch the sky
Anything could happen
The future looks good (so good)
The future looks good (so good)
Yeah the future looks good on you
My oh my
We can do whatever
Yeah I'm feeling fine
As long as we're together
The future looks good (so good)
The future looks good (so good)
Yeah the future looks good on you

You're feeling alive
You've got that look in your eyes
And the future looks good on you
