

The Time Is Now

Zayde Wolf

Yeah
Yeah
They say the meek will inherit the earth
And life will teach you what you couldn't learn
That's why we gotta keep putting in the work
And maybe then the unity will emerge
We need a breakthrough
To do all the things it ain't safe to
Use all the pain the game gave you
Let's show 'em why we're irreplaceable
We're irreplaceable
Together nobody could stop us
Had to move the mountains now we on the top of
Together we running like we know the prize at the end and nobody clock us
At the speed of light
This what living and dreaming's like
We living it so we can sleep at night
When our dreams collide
That's when we arise
Yeah

Let's hold on to this feeling
We've got so much to believe in
Feels like I'm rising to the ceiling
If we dream it
We can be it
The time is now
The time is now
The time is now
The time is now
The time is now

They say the past is a lesson
And the future is a mystery
We know right now is a weapon
That's why we shooting to make history
We fired up
Aiming it for the sky it ain't high enough
And now we looking down cuz their time is up
Got so many wins can't count 'em up

We ready to ride yeah
And we up for the fight
Yeah we ready to ride
We up on a high
And we will arise
And we have arrived

Let's hold on to this feeling
We've got so much to believe in
Feels like I'm rising to the ceiling
If we dream it
We can be it
The time is now
The time is now
The time is now

We are the light
That cuts through the darkest nights
We're gonna rise
The time is now
The time is now

The time is now
The time is now
We're gonna rise
The time is now
The time is now

The time is now
The time is now
