

## False Starts

Zayn

Fast car, fast heart, trouble in my brain  
Big dreams, false starts and I know I've changed  
Don't want the things we can't have  
Watching my life just roll past

Old rooms, new paint  
Still it looks the same  
Sad thoughts, bad luck  
With no one to blame

They say that trouble don't last  
Sometimes the pain makes me laugh

It's hard but it only gets harder  
Tonight we can go it alone

No one ever has to know  
No one ever has to know  
No one ever has to know  
But I know I have to go  
Yeah, I'm shakin', my heart's naked  
Out of control

There's no more time, gotta get my way  
What do you want? We don't have to stay  
Trust me, you're not gonna crash  
They say that trouble don't last

It's hard but it only gets harder  
Tonight we can go it alone

No one ever has to know  
No one ever has to know  
No one ever has to know  
But I know I have to go  
Yeah, I'm shakin', my heart's naked  
Out of control

Before I leave a part of me behind  
Before I leave a part of me behind  
Before I leave a part of me behind

No one ever has to know  
No one ever has to know  
Before I leave a part of me behind  
No one ever has to know  
But I know I have to go  
Yeah, I'm shakin', my heart's naked  
Out of control
