

# Insomnia

Zayn

I've been roamin' and strollin' all of these streets  
Burnin' my eyes red, not slept for weeks  
Tested with torment, my future is bleak  
Lost in the moment with no words to speak

I can't find no peace  
(I can't find no peace)

Am I a fool (fool)  
Waitin' for you (you)  
What if you never come back (what if you)  
What if you never come back (what if you never come back)  
There's nothin' new (new)  
I made another hit  
I made another two (made another)  
What if we never know  
Why hearts deceive us  
The night calls the dreamers

My sleep was stolen, I'm searching for thieves  
These memories in my head, are too vivid to see

I can't find no peace  
(I can't find no peace)  
And when I close my eyes I feel it all again  
I can't find no peace

Am I a fool (fool)  
Waitin' for you (you)  
What if you never come back (what if you)  
What if you never come back (what if you never come back)  
There's nothin' new (new)  
I made another hit  
I made another two (made another)  
What if we never know  
Why hearts deceive us  
The night calls the dreamers

Insomnia  
And when I close my eyes I feel it all again  
Insomnia  
And when I close my eyes I feel it all again
