

Hey, Zay, I hope everything is good
I miss you so much
I come back in town Sunday
I don't know if you're busy or whatnot, but it's holiday season
, I really wanna go see the lights with you
I love you, bye
Huh, huh

Huh, where she wanna go?
I been countin' money, gettin' racks, the same as old
Ten toes with my gang forever, no, I'll never fold
If we got a problem, I might go and grab that pole
We might let it blow for real
All my youngins keep it real
Need a couple bands if they want me to come and sign that deal
She asked me if I loved it, I told her I only loved the feel
I'm Zone 3 and, no, not 203 and I'll just keep it real

You can keep it real
Feelings gone, so I can't feel
Takin' pills to numb the pain, told myself, "Try not to kill"
Will I ever lose my fame? I guess only time can tell
Pray they remember my name, told my mama I'll never fail
So I copped a chain, flex it like it's show and tell
Took the brain off of my coupe, think it's time I give 'em hell
You know I'ma keep it P, you know I'ma keep it player
Think I like this girl too much, so I took her to my lair

Huh, where she wanna go?
I been countin' money, gettin' racks, the same as old
Ten toes with my gang forever, no, I'll never fold
If we got a problem, I might go and grab that pole
We might let it blow for real
All my youngins keep it real
Need a couple bands if they want me to come and sign that deal
She asked me if I loved it, I told her I only loved the feel
I'm Zone 3 and, no, not 203 and I'll just keep it real
