

## Good night love

Zbigniew Wodecki

Your dreams are where I talk to you  
The rose you grow, the moon  
The smoke you share for two and me  
Your dreams are in the way of where you're cold  
On New Year's Eve till dawn  
On August nights so hard  
And springs we miss a lot

So when the dreams can finally come  
Can make our days so bright  
And stop your lonely tears, your tears  
So if there's no more tear to save for you  
The clock is weary too  
The day has gone too soon  
And no one's here for you, for good

Goodnight love, goodnight love  
Dreams are dancing still in your head  
Try to keep them warm, make them stay  
Goodnight love, goodnight love  
Barely feel the heat at my door  
Windows closed, the days passed, they're gone

We die  
[scatting]  
Your dreams are where you meet with mr Queen  
Tequila's mixed with gin  
After a three day spleen  
Your sun is history

Dobranoc, dobranoc  
[scatting]  
Goodnight love, goodnight love  
Barely feel the heat at my door  
Windows closed, the days passed, they're gone

Dobranoc, dobranoc  
[scatting]  
Goodnight love, goodnight love  
Barely feel the heat at my door  
Windows closed, the days passed, they're gone

Dobranoc  
One day I'll fly, I'll fly away
