

Baphomet

Zeal & Ardor

Right hand up, left hand down
Flame on the top and a moon around
Right hand up, left hand down
Flame on the top and a moon around
Right hand up, left hand down
Flame on the top and a moon around

Big man B got horns to show
Wings so black I don't see 'em anymore

I heard a laugh and a call
(I heard a laugh and a call)
I had enough for the fallen
(I had enough for the fallen)
Time is right to us all and
(Time is right to us all and)
I drew a circle to call him
Another man down

Big man B got horns to show
Wings so black I don't see 'em anymore

Right hand up, left hand down
Flame on the top and a moon around
Right hand up, left hand down
Flame on the top and a moon around

Big man B got horns to show
Wings so black I don't see 'em anymore

I killed a man in the morning
(I killed a man in the morning)
Didn't need no time for the warning
I took a step aside to find a man bawling
(A man bawling)
I drew a circle to call him
Another man down

Big man B got horns to show
Wings so black I don't see 'em anymore

Right hand up, left hand down
Flame on the top and a moon around
Right hand up, left hand down
Flame on the top and a moon around

Big man B got horns to show
Wings so black I don't see 'em anymore

We got a black flame burning
We got a black flame burning
Big man B got horns to show
Wings so black I don't see 'em anymore
We got a black flame burning
Big man B got horns to show
Wings so black I don't see 'em anymore

Big man B got horns to show
Wings so black I don't see 'em anymore
Big man B got horns to show
Wings so black I don't see 'em anymore
