

# A Long Way Down

Zebrahead

There's a hole in my heart  
And there's a hole in my head  
This shit is tearing me up  
From all the things that she said  
She said that she's had enough  
I kind of think that she did  
I should be going to bed  
But I can sleep when I'm dead

And I hate the drugs on my night stand  
The ones I shouldn't be taking  
This feels more like a nightmare  
You couldn't wake me up if you tried

It's a long way down  
And I'm falling  
Aim for my heart and rip it out  
I've got no use for it  
And I'm falling  
Don't catch me  
I've ignored  
The warnings  
It's a long way down  
When you're falling from the clouds

She wants the money  
The power  
The fortune and the fame  
The beating of our hearts  
The feeling is the same  
We're dying, falling  
Victims of our past  
We can't believe in futures cuz we know they never last  
We've been divided  
Incited  
Die to cast the blame  
Poison running through our veins  
We can't erase the shame  
We're breaking  
Mistaken  
Victims of the hate  
If you can't forgive yourself then, then it's already too late

And I hate the drugs on my night stand  
The ones I shouldn't be taking  
This feels more like a nightmare  
You could t sober me up if you tried

It's a long way down  
And I'm falling  
Aim for my heart  
And rip it out  
I've got no use for it  
And I'm falling  
Don't catch me  
I've ignored  
The warnings

It's a long way down  
When you're falling from the clouds

If you can't forgive yourself then it's already too late  
It's already too late  
If you can't forgive yourself then it's already too late  
It's already too late

It's a long way down  
And I'm falling  
Aim for my heart  
And rip it out  
I've got no use for it  
And I'm falling  
Don't catch me  
I've ignored  
The warnings  
It's a long way down  
When you're falling from the clouds

And I hate the drugs on my night stand  
The ones I shouldn't be taking  
This feels more like a nightmare  
You couldn't wake me up if you tried
