

## Lockjaw

Zebrahead

Lockjaw my skin raw  
I've had it with you walking on me  
Like an addict  
Still manic  
Scratching on the itch till I bleed  
Seesaw on my last straw  
Why you always wanna compete?  
Irradic, start a panic  
Fight apologize repeat  
I defy you boxing me in

You're always boxing me in  
Won't let it happen again  
You're always boxing me in  
Won't let it happen again

True crime in high times  
Make no sudden movements just freeze  
Like a cheap shot that's hard fought  
I like you when you're down on your knees  
My teeth grind, shoot blind  
I'm always on the edge of my seat  
Like a good cop to the bad cop  
Fight apologize repeat  
I defy you boxing me in

On and on again  
I feel worthless  
Start to brawl and then  
Feel so small  
On and on again  
Say I'm helpless  
Start and stall and then  
Make me crawl  
On and on again  
It's never painless  
Start to brawl and then  
Feel so small  
On and on again  
Say I'm reckless  
Start and stall and then  
Watch me fall

You're always boxing me in  
Over before it begins  
Always the same in the end  
Won't let it happen again
