

## Nerd Armor

Zebrahead

Sit back and sit in your hole  
(Shut up you hypocrite)  
Feels like I'm losing control  
(Shut up you hypocrite)  
When life is taking its toll  
(Shut up you hypocrite)  
You gotta give it up, gotta, gotta let it go

Break apart, it's a start  
Take it all away and hit explode  
Hit the floor, hit discard  
It's a long and winding row  
You better buckle up 'cause the end is starting  
Degenerates gotta be the life of the party

Get up, get up!  
All the saints and sinners  
Get up, get up!  
The losers and the winners  
Get up, get up!  
All the freaks and geeks  
Get up, get up!  
Wait 'til they get a load of me

Sit back and sit in your hole  
(Shut up and deal with it)  
Hold on, we're losing control  
(Shut up and deal with it)  
Sometimes you don't even know  
(Shut up and deal with it)  
You gotta give it up, gotta, gotta let it go

Ain't there no where left to kill  
Enjoy despair, in the air  
Think we just hit an all time low  
You better cut your teeth 'cause the pain is coming  
Another let down, with this

Get up, get up!  
All the saints and sinners  
Get up, get up!  
The losers and the winners  
Get up, get up!  
All the freaks and geeks  
Get up, get up!  
Wait 'til they get a load of me

Wait 'til they get a load of me  
Wait 'til they get a load of me!

Break it all down, spawn in the underground  
Take it all now as promises drown  
I can show you how and keep you spellbound  
Break it all, break it all, break it all  
Hey! Hey!

Nothing to left to care

Even if it's just a little  
Let a sharp tongue stare  
cut you down the middle  
Grind to a halt  
with the bitterness tasting  
Nothing sadder than latter,  
life less wasted

Get up, get up!  
All the saints and sinners  
Get up, get up!  
The losers and the winners  
Get up, get up!  
Villains and the heroes  
Get up, get up!  
The number ones and zeroes

Get up, get up!  
All the saints and sinners  
Get up, get up!  
The losers and the winners  
Get up, get up!  
All the freaks and geeks  
Get up, get up!  
Wait 'til they get a load of me
