

Pulling Teeth

Zebrahead

Gonna cut me up
Try to make a scene
Gonna light a match
Drippin' gasoline

If I don't belong here does anyone?

Wanna break me down
Push me overboard
Ya know our time is now
Won't be ignored

If I don't belong here does anyone?

And I'll lick my wounds till no longer sore
Won't watch my mouth till you hate me more

Make me believe
That things get better
Make me believe
This won't last forever
Rip my heart right out of me
Rip it out, I don't feel a thing 'cause
If I don't belong here does anyone?

Ya say I don't belong
It's like pulling teeth to
Admit you were wrong
That we all can bleed

If I don't belong here does anyone?

There's hell to pay
For conformity
A wasted youth
On you and me

If I don't belong here does anyone?

And I'll lick my wounds till no longer sore
Won't watch my mouth till you hate me more

Make me believe
That things get better
Make me believe
This won't last forever
Rip my heart right out of me
Rip it out, I don't feel a thing 'cause
If I don't belong here does anyone?

If I don't belong here does anyone?
That things get better

If I don't belong here does anyone?
If I don't belong here does anyone?

Make me believe

That things get better
Make me believe
This won't last forever
Rip my heart right out of me
Rip it out, I don't feel a thing 'cause
If I don't belong here does anyone?
