

The Invisible Guide

Zed Yago

Whenever you come
Whenever you go
Unnatural precious has blown your mind
So try to find
Your circle of life
In your destiny

Who chased us out of paradise I don't know
A question of disgress
Old rituals gone
New gods removed the old

You've got the power
But I've got the key
The universe streams into infinity
Don't loose your way
Stay on my road
Road to fantasy

Who chased us out of paradise
I don't know
A question of disgress
Old rituals gone
New gods removed the old

When the angels turn out the light
O will be there, your invisible guide
When the angels turn out the light
Let me be your invisible guide

You've got the power
But I've got the key
