Zedd

We're smart enough to know that no one gets out alive (never, e
ver)
Hold on to someone close, friend
Cause you're never too young, you're never too young, never too
 young to die
Remember the ghosts before you, and drink to the souls tonight
And don't forget what they told you
You're never too young, you're never too young, never too young
 to die

You're never too young
You're never too, never too
No, you're never too young
Never, never

Uh, tell me is it the day I made it?
Feel like the world is over, don't know why I've been created
I've been under pressure but nevertheless I know nothing can me
asure
Feeling outdated, everybody inebriated
Feel like I'm automated, I'm automated, I'm automated
No, never faded, but debated a visionary that made it
As it escalated, I elevated and feel like I read it again
Cause all of this, it just sounded the same in my mind

We're smart enough to know that no one gets out alive (never, e
ver)
Hold on to someone close, friend
Cause you're never too young, you're never too young, never too
 young to die
Remember the ghosts before you, and drink to the souls tonight
And don't forget what they told you
You're never too young, you're never too young, never too young
 to die

You're never too young
You're never too, never too
No, you're never too young
Never, never

We're smart enough to know that no one gets out alive (never, e
ver)
Hold on to someone close, friend
Cause you're never too young, you're never too young, never too
 young to die
Remember the ghosts before you, and drink to the souls tonight
And don't forget what they told you
You're never too young, you're never too young, never too young

to die
