

# Levitate

Zeds Dead

I don't wanna pretend I don't see you  
I don't wanna tiptoe around the room  
I just gotta even if it hurts me  
It's okay, please just go away

Celebrate myself and I  
Why's it feel like that? Makes me wanna cry  
It goes away when I start to move  
I feel okay but I look insane

To think I found myself again  
There must be something wrong with my head  
I know I look dumb  
Put my favorite song on

Put my favorite song on

I don't wanna pretend I don't see you  
I don't wanna tiptoe around the room  
I just gotta even if it hurts me  
It's okay, please just go away

Celebrate myself and I  
Why's it feel like that? Makes me wanna cry  
It goes away when I start to move  
I feel okay but I look insane

Boys are dancing all alone  
Making people clear the room  
As they go, I levitate  
I feel better this way

I don't wanna pretend I don't see you  
I don't wanna tiptoe around the room  
I just gotta even if it hurts me  
It's okay, please just go away

To think I found myself again  
There must be something wrong with my head  
I know I look dumb  
Put my favorite song on

I feel okay but I look insane

Boys are dancing all alone  
Making people clear the room  
As they go, I levitate  
I feel better this way

I don't wanna pretend I don't see you  
I don't wanna tiptoe around the room  
I just gotta even if it hurts me  
It's okay, please just go away

I don't wanna pretend I don't see you  
I don't wanna tiptoe around the room  
I just gotta even if it hurts me

It's okay, please just go away
