

## Lights Out

Zeds Dead

You know the night is young  
Im trying to have some fun  
And youre the only one one one  
Were gonna leave the city  
Well drive and drive for miles  
No time to think about it  
Lets run away lets run ooouh  
The city has my hearth  
But now were miles apart  
Well make a brand new start start start  
Lets find a new begining  
No time to turn back now  
This rode is never ending  
Well find a way somehow ooouh  
We got that city lights

And are they burning bright  
The city lights x4

Lights out, lights out..
