

Vertigo

Zeds Dead

Acid rain burns on my skin
I can recall on your lips
And I think you went straight to my head
Maybe I'm too prone to it

And it feels too loud, so I wanna get it out
Yeah, I wanna get it out, could you help me somehow?
When you move so fast when you're running your mouth
I might never come down, I might never come down

If we started over
If it's now or never
Would you be there to take my hand?
All the clocks are broken
Falling in slow motion
Know it's hard to understand

Vertigo, I lose my grip (Ooh, ooh, ooh)
When you talk just like a kid
Maybe we should take a trip (Ooh, ooh, ooh)
Before all the walls start closing in

And it feels too loud, so I wanna get it out
Yeah, I wanna get it out, could you help me somehow?
When you move so fast when you're running your mouth
I might never come down, I might never come down

If we started over
If it's now or never
Would you be there to take my hand?
All the clocks are broken
Falling in slow motion
Know it's hard to understand

Ooh, ooh, ooh
Ooh, ooh, ooh
Ooh, ooh, ooh
Ooh, ooh, ooh
