

## Awake

Zeina

You feeling ways about me  
You should've did it when you could've got me  
I see you cry but that ain't your feelings  
You're trynna fight and make up for business

I see right through you I'm awake  
Now I know your colours you're a snake  
The way you talk to me I feel betrayed

I see right through you I'm awake  
Lotta lies had to press the breaks  
I should've never trusted you that's my mistake  
I let the love I had for you get in the way  
But I see right through you I'm awake  
Lotta lies had to press the breaks  
I should've never trusted you that's my mistake  
I let the love I had for you get in the way  
I see right through you I'm awake

Baby I got my limits  
I can't just sit here so you feel important  
You need attention  
Make bad decisions  
And you drain me till I don't feel my face

I see right through you I'm awake  
Now I know your colours you're a snake  
The way you talk to me I feel betrayed

I see right through you I'm awake  
Lotta lies had to press the breaks  
I should've never trusted you that's my mistake  
I let the love I had for you get in the way  
But I see right through you I'm awake  
Lotta lies had to press the breaks  
I should've never trusted you that's my mistake  
I let the love I had for you get in the way  
I see right through you I'm awake
