Consequences

Zeina

I said I don't really know if I can take it
You want a couple minutes right now just to fix this
When it comes to the shit you can't see
I gotta talk about it
You got used to havin' me in your sheets
You can't live without it
You let somebody else come and take your place
Who deserves it
You let somebody else come and take me home
For the distance
Now that he lovin' on me
You put the work in
Now that he spendin' on me
Yeah you wanna get a Birkin

I know its hard for you to say somethin'
But you know that I've been way too understandin'
And I know you're hurtin' like I was hurtin' babe
But you know you gotta deal with these things differently

Now that you're back
No its not the same
You gave it up for someone to take
What if I said you're one time too late
Consequences to your mistakes

I know you see me workin' on my life
And you feel like you're left behind
I know you think bout who I'm with at times
When you're havin a lonely night
I know you wanna call me up
Like can we try to make it
Where was all this at when you had me naked

I know its hard for you to say somethin'
But you know that I've been way too understadin'
And I know you're hurtin' like I was hurtin' babe
But you know you gotta deal with these things differently

Now that you're back
No its not the same
You gave it up for someone to take
What if I said you're one time too late
Consequences to your mistakes

Consequences, consequences
