Zeina

Got me going somewhere else
And you can't say that I ain't try with ya
I really hope you're doing well
But I can't lie I don't want you finding love
Cause I still want you to myself
But I can't promise you're the only one
And now you're ringing at my bell
Trynna tell me you don't give a fuck

I don't wanna know
What you been on and where you been gone and what you've been doing
Cause now that you're 21 and moving on
You're acting reckless
I don't wanna know
What you been on and where you been gone and who you've been with
Cause now that it's 4 in the morn
You forgetting em' all in my apartment

You want me to stay close
We're in too deep
Get to that level
When you're with me
You got potential
But you want to spend the night
And you know it ain't right
You know it baby

Trynna tell me that you're steady
Now you're tripping all on me
You hit me on the way to you
Asking me if I think you're enough
You wanna know if I'm with someone new
I told you my intentions for you
But you still wanted me to come thru
I told you the truth so I didn't hurt you

I don't wanna know
What you been on and where you been gone and what you've been doing
Cause now that you're 21 and moving on
You acting reckless
I don't wanna know
What you been on and where you been gone and who you've been with
Cause now that it's 4 in the morning
You forgetting em' all in my apartment

You want me to stay close
We're in too deep
Get to that level
When you're with me
You got potential
But you want to spend the night
And you know it ain't right
You know it baby
