

## Suburbs

Zeina

Everyone around me  
Girls at the party  
We pull up deep  
Cause they can't tell us nothin  
The gang too chic so they talking about it  
This ain't my scene let me know where you're waiting

It wasn't about being with somebody else  
I was just locked in and working on myself  
Driving in the east end coming your way  
In the suburbs for the weekend at your place

On the highway trynna make my way to you  
Baby stay up for me until I come through  
I need a break from everybody actin new  
You never switched up on me I rely on you

I got way too much to prove em  
In the stu' promise I'll come  
I know you're getting impatient  
But I do it for my day ones  
And you'll see when all is done  
Imma get to your location

It wasn't about being with somebody else  
I was just locked in and working on myself  
Driving in the east end coming your way  
In the suburbs for the weekend at your place

On the highway trynna make my way to you  
Baby stay up for me until I come through  
I need a break from everybody actin new  
You never switched up on me I rely on you

You shouldn't care about what they say  
I can tell em all straight to they face that  
I don't need more than one in your place  
You see me out and I know u feel ways  
But I'm

On the highway trynna make my way to you  
Baby stay up for me until I come through  
I need a break from everybody actin new  
You never switched up on me I rely on you
