

Talk Luv

Zeina

I can't go to sleep
I can't go to sleep on my

I can't go to sleep on my own
You're the peace that I need after long
Days I been answering calls
Waiting hoping they were all yours
Talk luv with me 'til my eyes close
Talk dirty 'til I gotta close the door
Spending all these hours on the phone
Even though I wake up early in the morn'

You know I'ma go on tour
At your nine, I'll be at four
Tell me will you stay up to call me
I got options down to score
I can't do it anymore
Tell me, will you come along to see me?
And all my friends are tellin' me
That I can't bet on loyalty
The game is different overseas
But that don't mean nothin' to me

I can't go to sleep on my own
You're the peace that I need after long
Days I been answering calls
Waiting hoping they were all yours
Talk luv with me 'til my eyes close
Talk dirty 'til I gotta close the door
Spending all these hours on the phone
Even though I wake up early in the morn'

You wild and you know it
But I got a question
What you be doin when you send me to
"Please leave your message after the tone"?
(Leave a message? What? Damn)
That shit drive me crazy, baby
You got me thinking
Are you messaging me while you be layin' next to somebody?
Are you?
Are you?
I can't go to sleep on my

Waiting hoping they were all yours
