

Teach

Zeina

I'll teach you how to kiss it, teach you how to touch it
Teach how to lick it, no one else's business
I'll teach how to kiss it, hit it like you miss it (Hit it like)
Let me be your healing, beat it like you're hurting

I'm coming over (You know)
You know what I want
Said fuck your show, that's way too formal
Let me put you on 'cause you're special (Special)
And the length you giving me got potential (Potential)

First, look at my eyes when you go down
Second, make that thing cry until you drown
Third, it's okay if you don't last the first time
You gotta go round for round

Take care of my body
Go deep in my sea
Don't be cute, be nasty
Put that on me
Take care of my body
Go deep in my sea
Don't be shy with your hands
You know where they should be

I'll teach you how to kiss it, teach you how to touch it
Teach how to lick it, no one else's business
I'll teach how to kiss it, hit it like you miss it
Let me be your healing, beat it like you're hurting

Kiss my neck 'til I got chills on my skin
Give me BDE and I'ma bust it open
Take me to the back, we can sneak one in
Work your angles 'til that kitty in a hearse

First, look at my eyes when you go down
Second, make that thing cry until you drown
And third, it's okay if you don't last the first time
You gotta go round for round

Take care of my body
Go deep in my sea
Don't be cute, be nasty
Put that on me
Take care of my body
Go deep in my sea
Don't be shy with your hands
You know where they should be

Yeah, baby, gotta give me just a little bit (Just a little bit)
Teach you how to start swimmin' just a little bit (Just a little bit)
I wanna take off your pants just a little bit
Run your hands up my skirt just a little bit
Get to kissing and teasing a little bit (Just a little bit)
Get to licking a little bit

I'll teach you how to kiss it, teach you how to touch it

Teach how to lick it, no one else's business
I'll teach how to kiss it, hit it like you miss it
Let me be your healing, beat it like you're hurting

Take care of my body
Go deep in my sea
Don't be cute, be nasty
Put that on me
Take care of my body
Go deep in my sea
Don't be shy with your hands
You know where they should be
