

# Temporary

Zeina

I been havin' conversations, hearin' 'bout my old thing  
It was complicated, had to my own thing  
And I don't wanna go back to that (I don't wanna go)  
That ain't where my mental is at (That ain't where my mental)  
So if you ever see me, I'll be on my own time  
Act like you don't know me, till I hit up your line  
I always come through with that (You know, you know)  
But promise me you won't get attached

I just wanna keep it friendly  
'Cause I don't really have it in me  
You know I'm ready for a good time  
But you're not gonna stay on my mind  
All these parties never empty (All these parties never empty)  
And all my girls, they comin' with me (All my girls)  
It's only danger in the city  
And you know I'm not leavin' lonely (You know I'm not leavin')

And you should know (You should know)  
Before this goes on (This goes on)  
Don't lose control (Lose control)  
I don't save souls (Save souls)

They say love comes with trauma so baby, keep it simple  
I didn't save your number, gettin' caught up ain't my tempo  
You know I like it on standby (You know I like it on standby)  
So come and see me right before my flight (See me right before my flight)  
But I'ma keep it honest 'cause I don't want you fallin'  
Act like you've been through this, I hope you won't be callin'  
Your friends for some more advice (Your friends for some more advice)  
'Cause there ain't nothin' in between these lines

I just wanna keep it friendly  
'Cause I don't really have it in me  
You know I'm ready for a good time  
But you're not gonna stay on my mind  
All these parties never empty (All these parties)  
And all my girls, they comin' with me (All my girls)  
It's only danger in the city  
And you know I'm not leavin' lonely (You know I'm not leavin')  
All these parties never empty (All these parties never empty)  
And all my girls, they comin' with me (All my girls they comin')  
So when you see me, you don't know me  
I like it better when it's easy (I like it better when it's easy)

And you should know (You should know)  
Before this goes on (This goes on)  
Don't lose control (Lose control)  
I don't save souls (Save souls)

(It's only danger in the city)
