

## Castles

Zella Day

They're too busy building their castles  
And dealing with unmeaning hassles  
You wonder why, makes you sigh  
Not enough connection, feelings of rejection  
Oh wouldn't it be nice to slow down time  
Before the doors close  
'Cause all you see is the sun setting west over me

There but not, where are you  
Here is where you want to be  
There but not, where are you  
Here is where you want to be, with me  
Oh, oh

They're too busy building their castles  
Don't have to stone on their walls  
You wonder why (why)  
Dividing high (high)  
Won't let us reach inside

Balance in your heart  
A glance into your life is a good place to start  
To make it back alright

There but not, where are you  
Here is where you want to be, with me, oh  
There but not, where are you  
Here is where you want to be, with me  
Oh, oh

With me, with me, with me  
Ooooooh  
They're too busy

There but not, where are you  
Here is where you want to be, with me, oh  
There but not, where are you  
Here is where you want to be, with me  
There but not, where are you  
Here is where you want to be

Here is where you want to be, with me
