

## Close Up

Zendaya

We can capture the moment, we don't need a camera  
Love the way that you keep it flashing like a cannon  
Silent shooter, you got me when I least expected  
Working angles, you gettin' me from all directions  
Put you on that high definition love  
Know I got that high definition touch  
Shake that body like polaroids  
I'm movin' all night, all night, alright

Don't be camera shy, baby zoom over  
Let me get focused  
There's a bigger picture, I just wanna show ya  
Baby let me hold ya  
Ready for my close up  
Dying to be with ya

Ready for my close up, close up, close up  
Baby get closer, closer, closer  
Ready for my close up, close up, close up  
Baby get closer, closer, closer

Don't be camera shy, baby zoom over  
Let me get focused  
There's a bigger picture, I just wanna show ya  
Baby let me hold ya  
Ready for my close up  
Dying to be with ya

Ready for my close up, close up, close up  
Baby get closer, closer, closer  
Ready for my close up, close up, close up  
Baby get closer, closer, closer
